NATURE-INSPIRED POLYMERS

TOTALLY ORGANIC, FULLY BIODEGRADABLE

KarmaCane™

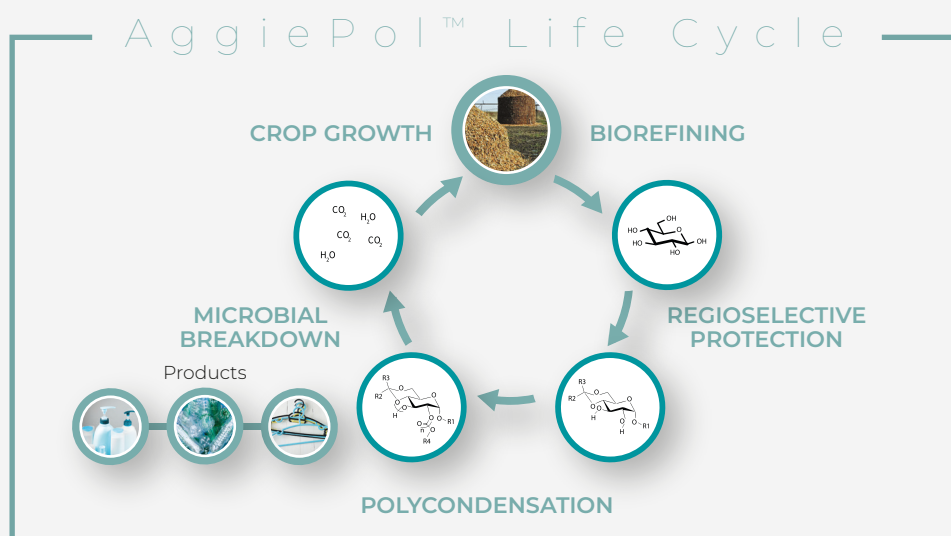

Teysha introduces a range of new polymers based on sugars, designed for sustainability and ease of breakdown, for diverse applications.

Plastic pollution is a growing threat, harming ecosystems and our planet's health. That's why Teysha is proud to unveil a breakthrough in sustainable materials: polymers made from sugar building blocks!

After extensive research and development, we've created high-performance polycarbonates with a high natural content. This means they significantly reduce reliance on harmful petrochemicals and are more readily biodegradable, minimizing their environmental impact.

Imagine a diverse range of products, from durable plastics to soft elastomers, all made with nature in mind. This is the power of Teysha's sugar-based polymers, offering a sustainable solution for various industries.

**JOIN US IN EMBRACING A GREENER FUTURE.
EXPLORE TEYSHA'S INNOVATIVE POLYMERS
AND BE PART OF THE CHANGE TOWARDS A CLEANER,
HEALTHIER PLANET.**

Teysha Technologies offers a range of innovative KarmaCane™ polymers, each with unique properties and promising applications. Whether you need a water-repellent coating, a biodegradable additive, or a flexible elastomer, KarmaCane™ has a solution for you.

EXPLORE THE POSSIBILITIES

KarmaCane-8 – This hydrophobic, high-performance polymer boasts excellent water-repellent properties. Imagine AggiePol-8 shielding your windows, fabrics, or wood from moisture damage. AVAILABLE IN POWDER OR SOLUTION FORM.

KarmaCane-9 – Unlike its sibling, AggiePol-9 partially dissolves in water. Its biodegradability (certified under OECD 310) and thickening abilities make it ideal for eco-conscious cosmetics and personal care products. AVAILABLE AS A POWDER.

KarmaCane-12 – This rubber-like polymer exhibits superior flexibility and strength. Envision KarmaCane-12 enhancing your gums, films, and adhesives, taking their performance to the next level. AVAILABLE AS A CONCENTRATED SOLUTION.

OUR DIVERSE AGGIEPOL™ PORTFOLIO AWAITS YOUR EXPLORATION. WE ENCOURAGE YOU TO REQUEST SAMPLES AND TEST THEM IN YOUR SPECIFIC APPLICATIONS. THE POSSIBILITIES ARE ENDLESS!
